**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Sutt, Jr et al., U.S. Patent No. 5,761,863.

In regards to claim 1, Sutt discloses a permanent one piece retrofit hurricane and earthquake connector comprising a base member ( 34) and angled top web with rafter tabs ( 40) , connected by a double angled offset member (Fig.4, 44).

***Response to Arguments***

Applicant's arguments with respect to claims 1 through 14 have been considered but are moot in view of the new ground(s) of rejection.
